Digits and Their Places

Decimal Dina and the Number Quest

Welcome to the world of Numerica, where Decimal Dina, a young and curious number explorer, is on a quest to retrieve the lost digits from the ancient Scroll of Value. She must travel through the Valley of Place Value, cross the Bridge of Digits, and solve puzzles in the Temple of hundred Thousands.

Can you help Dina complete her journey?

Questions

1. While entering the Valley of Place Value, Dina finds the number **472,586** carved into a stone. What is the value of the digit **4** in **472,586?**

2. At the Bridge of Digits, a tollkeeper asks:

In the number **835,041**, the digit **3** is in the _____ place and has a value of _____.

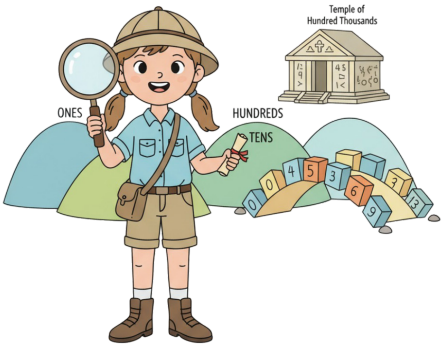

3. To cross safely, Dina must answer the guards correctly.

a) In **905,410**, the digit **0** has no value. **(True / False)**

b) In **102,435**, the digit 1 is in the hundred thousands place. **(True / False)**

4. Dina discovers a scroll that reads:

A library in Numerica has **53,670** books. The city donates **40,000** more. How many books does the library have now?

5. To unlock the vault, Dina must complete a puzzle: Write this number in digits:

Seventy-two thousand, eight hundred and fifty-one

Answer: _____

6. A statue challenges Dina:

a) In the number **321,000**, the digit **2** is in the thousand place. **(True / False)**

b) 100,000 is ten times greater than **10,000. (True / False)**

7. Inside the Temple of Ten Thousands, Dina finds four golden urns and four plaques. Match each number to the correct place value of the highlighted digit.

Number	Place Value
62,195	a) 200
20,726	b) 20
79,203	c) 20,000
58,072	d) 2000
56,027	e) 2

8. In the Gallery of Value, Dina sees expanded numbers. Write the number.

Expanded Form	Number
50,000 + 7000 + 800 + 20 + 1	
40,000 + 2000 + 90 + 5	
30,000 + 6000 + 100 + 50 + 9

9. Dina meets a merchant who offers her clues.

What is the number ten times greater than 24,500?

a) 245,000

b) 2450

c) 2,450,000

d) 24,500

10. At the final gate, a riddle awaits:

Dina counted **184,523** shells on the beach. Later, she found **15,000 more.**

What is the new total number of shells?

With all puzzles solved, Decimal Dina unlocks the Scroll of Value and restores place value knowledge across Numerica.

Congratulations, Guardian of Numbers!
